SUMMARY

The present document supplements the Bibliography of Documents Relating to the Transfer of Technology (UNIDO/IS.228), compiled by the UNIDO Technology Programme. It covers sales publications, working group papers and other documents issued between 1 January 1981 and 31 March 1985.

As this document was prepared from the Industrial Development Abstracts data base, there are a number of changes in format. It has been possible to present additional information, such as author and subject indexes.

The language versions in which each item is available at present are indicated at the end of each entry by the following abbreviations: ARAB (Arabic), CHIN (Chinese), ENGL (English), FREN (French), RUSS (Russian) and SPAN (Spanish).

Publications for which a price is given should be ordered from local bookstores and distributors or from the Sales Section, United Nations, Geneva, Switzerland (for residents of Africa, Europe and Western Asia) or the Sales Section, United Nations, New York, United States of America (for residents of Asia and the Pacific and North and South America). Please allow sufficient time for delivery since material is sent by surface mail. Orders must include the title, symbol number and language version required.

All other items, provided they are still in print and are not marked (R) RESTRICTED, are available free of charge, in limited number, on request to the Editor, UNIDO Newsletter, UNIDO, Vienna International Centre, P.O. Box 300, A-1400 Vienna, Austria. Documents in the series ID/WG.1-381 as well as most other documents (ID/B/..., UNIDO/IS... etc.) more than one year old are often no longer in print and should not be requested. Most Working Group papers (ID/WG. ...) and some of the other documents are available on microfiche and these may be ordered from the Sales Section, United Nations, Geneva, Switzerland at a price of $US 1.65 per fiche. (Orders from governmental bodies receive a 25 per cent discount).

It should be noted that the Annual Report of the Executive Director includes a description of the activities of the UNIDO Technology Programme. Information on the technical subjects dealt with in the publications is obtainable from the Industrial and Technological Information Bank (INTIB), UNIDO.
